Huntzinger Technical and Infrastructure Assessment Services
Aiding Healthcare Organizations Meet Expanding Technology and Infrastructure Challenges.
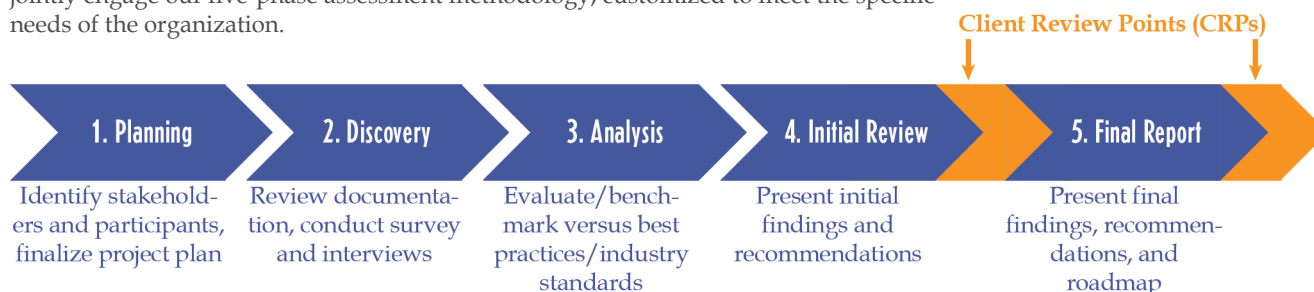

Growing Challenges

Healthcare organizations are facing an ever-expanding set of challenges related to technology and infrastructure, including:

- Emerging technologies
- Increased end-user expectations and demands
- Cyber security threats
- Expanding internet of things (IoT)
- Transition of capex to opex
- Cost-containment/reduction pressures
- Exponential data storage growth
- Limited availability of skilled staff

Huntzinger is ranked top five in HIT Advisory Services Category, 2018 Best in KLAS Report: Software and Services Report.

Our Approach

Huntzinger's Technical and Infrastructure Assessment Services will help healthcare organizations position their infrastructure team to operate more efficiently and effectively, while embracing emerging technologies. We conduct the technical and infrastructure assessment through a partnership between your organization and Huntzinger, where we jointly engage our five-phase assessment methodology, customized to meet the specific needs of the organization.

Client Review Points (CRPs)

1. Planning	2. Discovery	3. Analysis	4. Initial Review	5. Final Report
Identify stakeholders and participants, finalize project plan	Review documentation, conduct survey and interviews	Evaluate/benchmark versus best practices/industry standards	Present initial findings and recommendations	Present final findings, recommendations, and roadmap

Client review points are included to validate the process and to gain the organization's reaction. Each assessment is customized to the organization's needs. Upon completion of these steps, clients have the option of engaging Huntzinger to implement and support recommendations.

Benefits

Typical results achieved by organizations engaging Huntzinger's technical and infrastructure assessment services include:

Financial Enhancement	Enhanced Customer Satisfaction	IT Operational Enhancement
• Increased productivity • Reduced and/or redirected spend • Effective spend of both capital and operating dollars	• Effective delivery of technology and services to end users and consumers • Improved availability • Reliable processes and procedures • Ability to react quickly to changing end-user needs	• Rationalized IT structure and staffing levels • Development of a multi-year, actionable technology and infrastructure roadmap • Solidify and maintain the technology and infrastructure foundation upon which to build • Foster an environment able to embrace emerging technologies, i.e., cloud, mobility, consumerism, expanded care team collaboration, etc.

How We Deliver

Huntzinger's team consists of passionate and experienced information technology professionals who have dedicated their careers to the healthcare IT industry. Their experience includes serving as CIOs, CTOs, and infrastructure executives at healthcare organizations ranging from community hospitals to academic medical systems.

Why Huntzinger?

- **We Know Technology —** Huntzinger consultants have broad and deep technology knowledge and expertise, designed to provide both immediate and sustained impact.

- **Healthcare Experience —** Healthcare is our sole focus. Our consultants have worked at major hospital systems and other healthcare providers, many as CIOs/CTOs/VPs in technology and more. We have been in your shoes, and beyond that our talents and collective experience have been enriched through many, and diverse, client engagements.

- **Highest Quality Delivery —** Huntzinger has a strong recruitment and evaluation process for our resources, ensuring that we match consultants to your organization's culture and specific role requirements, who then produce and deliver quality results on your behalf.

- **Strong Partnerships —** Huntzinger has relationships with many of the major technology providers, and we leverage these relationships to deliver cost-efficient and highly effective solutions.

- **Culture of Performance —** Client feedback, through many and diverse engagements, has consistently been expressed by the terms *Integrity, Commitment, Expertise, Performance and Results* — which, by design, are the keystones of our company culture.

"Huntzinger really partnered well with our team to push us where we needed a push. It was refreshing to work with a partner that was direct, honest and truthful about our condition (to include the recommendations for remediation), rather than tell us what we want to hear to secure the next contract. We rely on the hard truth to make things better."
Scott Arnold, Senior VP & CIO
Tampa General Hospital

"The highly regarded professionals at Huntzinger were retained to perform IT strategic and technical assessment services. Their experience and proven approach was valuable in quickly creating a roadmap to improvements within our organization."
Laura Smith, VP & CIO
